

Fruit Growers Tasmania

ANNUAL CONFERENCE 24-26 MAY 2018 Sponsor Information Sheet

Industry Moving Forward...

The FGT Annual Conference will be held over 24 - 26 May in Northern Tasmania with the theme of *biosecurity and improving production*.

The FGT Conference is once again attracting key spokespeople from across the country as well as overseas. With FGT advertising the conference nationally, there is a number of mainland delegates indicating their interest in attending.

As always we will work with our sponsors to achieve maximum exposure including placement of the trade area within the dining area and additional time allowed over morning tea, lunch and afternoon tea for connecting with producers.

We also offer the opportunity to display machinery outside the entrance to the venue. If you are also interested in attending the annual dinner, we welcome you to host a corporate table at 10% discount and invite growers as your guests - a great way to connect informally, thanks your best clients or encourage one of the up and coming producers.

- 24th of May – Biosecurity
- 25th of May – Innovation and technology
- 26th of May – Demonstration orchard and berry field tour in northern Tasmania.
