# Welcome to our local farm gate

Fruit Growers Tasmania

Tasmania's bountiful fresh produce is renowned for its delicious flavour and is highly regarded by food connoisseurs worldwide. Tasmania's temperate climate provides the essential winter chill followed by a long, mild growing season to support fruit development and enhanced flavour. Our rugged geography also creates niche micro-climates throughout the state, allowing a diverse variety of products to be grown and harvested fresh.

The fruit industry in Tasmania is one of the oldest and has shaped the future of many regions, including the Huon Valley and Tamar Valley. Our growers take care and pride in what they do and love providing premium quality fruit and vegetables to national and overseas markets.

The Tasmanian Seasonal Produce Guide has been designed for locals and visitors to source some of the freshest local produce directly from growers and producers. Grab a bag of fresh apples or cherries, a punnet of delicious berries, or a jar of honey to snack on as you travel around and experience all that Tasmania has to offer.

Relax and enjoy your tour around the beautiful state and revel in the abundance of delicious fresh produce from one of the most ideal environments in the world.

We acknowledge and pay respect to the Tasmanian Aboriginal people as the original and traditional custodians of the land on which our industries cultivate and grow.

*Fruit Growers Tasmania is the peak body representing apple, pear, cherry, berry and stonefruit growers in Tasmania. It is a not-for-profit industry association run by Tasmania's growers, for Tasmania's fruit growers.*

### Seasons change, and so do small businesses' open hours.

We recommend you check with individual businesses via social media, phone or website for up-to-date information.

You never know when you will stumble across a little farm gate stall, so we encourage you to always have some cash on you, as some stalls are solely cash honesty systems.

Unfiltered, unfiltered, unpasteurised. We use natural methods  
and minimal intervention to create the purest expression of fruit.  
Simple. Put simply it is our goal to grow the best fruit, mill it, press  
it, ferment it, mature and bottle it in the most natural way possible.  
This idea has been the basis for all of Simple's work, and is what  
sets us apart from other ciders. We make small batch dry apple  
and cherry cider that is still alive and sparkling in the bottle and  
still has everything nature blessed it with. The Simple Complex is  
our new home located right in the heart of Hobart.

# FOR THE BACK SEAT BRIGADE

## Fun Fruit Fly Facts

Try saying that ten times super fast!

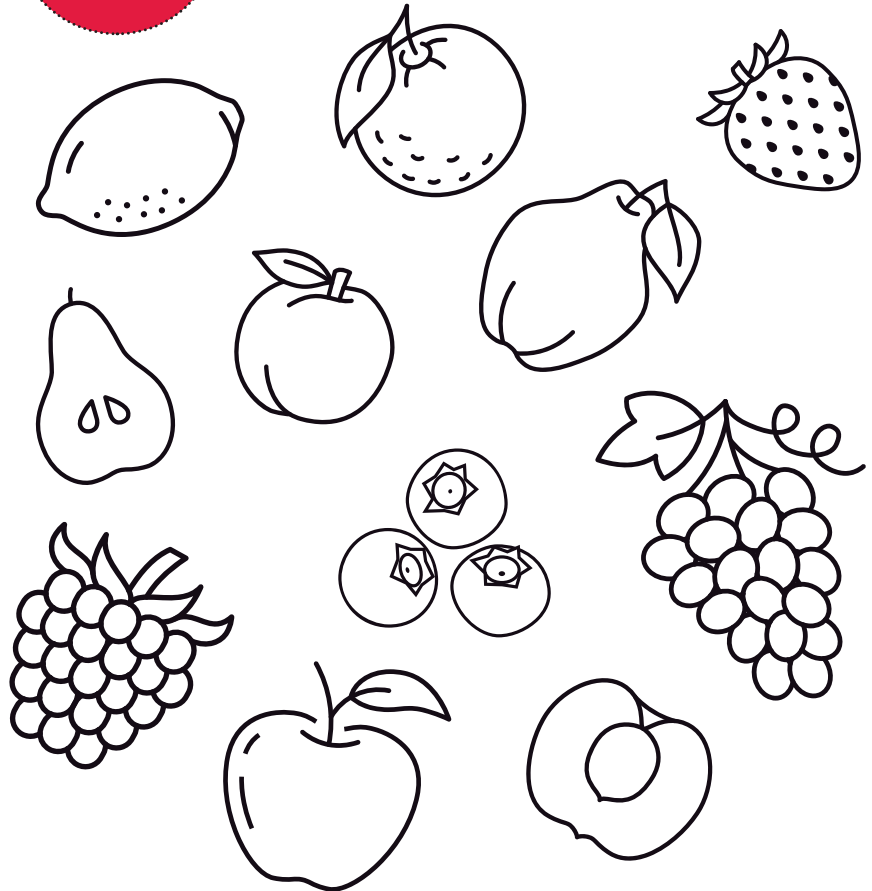

**Tasmania is free from fruit fly.** This gives our fruit farmers a great advantage and allows them to sell to lucrative international markets.

Female Queensland fruit fly injects her eggs into host fruit, laying up to 100 eggs a day.

Being fruit fly free means we don't need to use so many chemicals and sprays to control this nasty pest.

**Colour and create**

Do you know all the names of these fruits?  
What do they look like if you draw in some funny arms and legs? Faces? Hats?

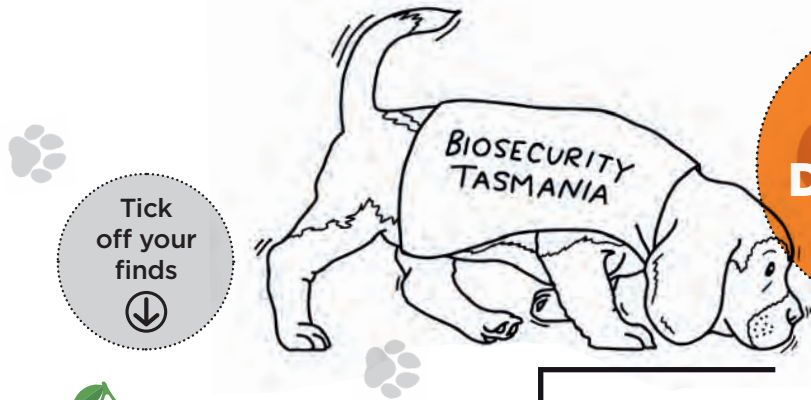

**Think you might have a pest or disease?**

# We are **TASMANIAN GROWN.**

[tasmaniangrown.au](http://tasmaniangrown.au)

On this cool and rain swept island of Tasmania, we grow some of the best produce in the world. Our isolation is our gift - a unique place, free from many pests and diseases. Our growers know what thrives here and they take the time to grow produce with care. Our seasons allow fruit to ripen slowly and naturally, developing an intensity of colour and flavour that is anticipated and enjoyed.
